TAPES

Perfect the look with the Timberlux® Collection tape option. Designed to impart sophistication and elegance to any décor, the sleek flat weave tapes are available in, 25mm, or 38mm widths. Alternatively, embrace your creativity with tapes meticulously cover the slat and punch hole, offering a seamless solution for fine-tuning light intensity whilst maintaining a well-coordinated appearance.

CHILD SAFETY

Ensure child safety with Alumatex Venetians. The 35mm and 50mm blinds feature a Breakaway Cord Condenser and a 2-Piece Safety Cleat. The cord condenser merges pull cords into one string, breaking away to prevent loops, while the safety cleat secures the cord out of reach. Additional safety includes a breakaway tassel, individually knotted cords, and two cord stop rings. Install the cleat close to the headrail and wrap the cord in a figure-eight motion.

MOTORISATION

Upgrade your home efficiency with motorisation – where intelligence and style are combined. Motorise for effortless smart control. Synchronise Alumitex blinds with smart devices to schedule closing times, preserving warmth remotely. Return to a comfortable home and lower energy bills effortlessly.

Alumitex® features a variety of motorised choices, all powered by the cutting-edge Somfy® technology, perfectly. In colder months, program motorised blinds to capture sunlight during the day and close at sunset.

In summer, they strengthen energy efficiency by blocking the sun's heat. Schedule them to close the need for air conditioning and maintain a pleasant temperature.

Automate Alumitex® blinds for enhanced privacy and security. Set timers to simulate occupancy, when no one is at home opening during the day and closing in the evening.

STAY IN CONTROL

Transform your home, make it more convenient, energy efficient and a safer place with our range of control and connectivity options.

-  **Remote Control:** Operate your blinds with the press of a button on a one, five or fifteen channel remote.
-  **Mains Control:** Control your blinds with the ease of a wall switch.
-  **App Control:** Manage and automate your Blinds through Somfy's Tahoma app, at home or anywhere in the world.
-  **Smart Connectivity:** Seamlessly connect Tahoma Blinds with smart speakers.
